

The Mist - Playtest 1

Feedback

- Hamster jumps too high.
- Only show new game warning if save game exists.
- Make Q, E and arrow images in the tab menu into buttons.
- Add mouse click as a key bind for continuing dialogue.
- Make inventory slots navigable with keyboard.
- Darken non selected party members in party UI.

Bugs

- Can interact with party members while they are following.

Changes Implemented

- Increased hamster's jump force and gravity scale to create a better feeling jump – less floaty.
- New game warning now checks if it's the first time starting a game before warning player about losing their save game data.
- Made Q, E and arrow images in tab menu into buttons.
- Dialogue can now be continued with either the enter key or left mouse click.
- Inventory slots can now be navigated and selected using the WASD keys.
- Selected party member now more clear.

Bug Fixes

- Make dialogue manager unselect party member when they start following.
